### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over U. S. Patent No. 5,673,252 to Johnson et al. in view of the examiner taking official notice.

As per claim 1, Johnson et al. disclose identifying application information ..... and identifying types of information .....(col. 38, lines 34-50), determining jurisdiction information .....(col. 31, lines 17-34), identifying the procedures .....(col. 33, lines 20-32) and providing status data .....(col. 18, lines 15-30). Johnson et al. do not specifically disclose the remaining limitations of this claim. The examiner, however, takes official notice that these elements are well known in the art of security systems . It would have been obvious to anyone having an ordinary level of skill in the art at the time the invention was made to have included these features in the invention of Johnson et al. since they comprise very well known elements necessary for the entire system to function in a secure and controlled environment.

***Allowable Subject Matter***

Claims 18-31 are allowed.

Claims 2-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
